

Indoor Exhibit Sheets

These sheets are to be used in conjunction with the Exhibits in the Discovery Centre.

- SL1 Recycling. Explore recycling, how we can change the way we do things and also how nature recycles materials.
- SL2 Seeds and Growth. Find out how flowers work, seeds disperse and plants grow.
- SL3 Habitats and Mini-beasts. See how many mini-beasts you can find in our indoor exhibits and discover what they need to live.
- SL4 Underwater Wonderland. Explore our Diversity of Life zone in the exhibits and find out how many different creatures live under water.
- SL5 Sensory Seekers. Use your senses to explore the different zones in our indoor exhibits.
- SL6 Shapes and Sculptures. Use this work sheet to help you explore some of the different shapes and sculptures in our indoor exhibits.
- SL7 Marvellous Materials. Explore the exhibits to find many different materials and why they are used.
- SL8 Food Chains. Use this work sheet to explore what different creatures eat and how food chains link together.
- SL9 Mammals. Find out more about mammals that live in Britain.
- SL10 Weather. Learn more about weather, how it changes, why it is important and what does Global Warming mean.
- SL11 Marvellous Maths. Explore and learn numeracy and maths around our indoor exhibits
